

**HYBRID SEALER**

WATER-BASED // 50% ACTIVES

# LITHI-TEK<sup>®</sup> 9500

## Penetrating Concrete Sealer & Densifier

A PROPRIETARY CONCRETE DENSIFIER AND WATERPROOFING CONCRETE SEALER THAT PROVIDES LONG-LASTING PROTECTION FROM MOISTURE AND ABRASION. A COST-EFFECTIVE CONCENTRATED, WATER-BASED, CONCRETE SEALER.

### **BENEFITS:**

- // Waterproofs & Strengthens Concrete
- // Locks Out Moisture
- // Resists Mold, Mildew & Efflorescence
- // Resists Cracking & Surface Erosion
- // Exceptional Water Beading

## DESCRIPTION:

Lithi-Tek® 9500 is an industrial-grade, water-based, proprietary concrete sealer designed to densify, strengthen and waterproof concrete all in one step. Lithi-Tek 9500 penetrates pores in the concrete and strengthens it up to 50% while providing excellent hydrophobicity. This proprietary blend of chemistries, shipped concentrated, is why we believe it is the concrete industry's most innovative product.

### DESIGNED FOR:

Concrete basement floors, poured basement walls, driveways, patios, walkways, sidewalks, and garages not exposed to de-icing salts.

**Note intended for:** Bricks, concrete blocks, cinderblocks or previously polished concrete/extremely smooth concrete surfaces. Not recommended for colored concrete. Not intended to be used as a substitute for a concrete vapor barrier or foundation membrane below grade (can be used in conjunction with a concrete membrane).

### MEETS OR EXCEEDS:

ASTM E-96: Water Vapor Transmission

ASTM C-1353: Abrasion Resistance

ASTM C-779: Abrasion Resistance

ASTM C-642: Density, Absorption, and Voids

ASTM E-303: Surface Frictional Properties

OHD L-34: Depth of Penetration
